"Surprise attacks by the enemy at various points of the front were repulsed by our fire."

LONDON, July 20.—Except for small encounters between British and German patrols near Bullecourt and of the River Zbrocz, on the Russian of the Russian o with gladness to know that the Red now stands not only for physical and moral aid to the individual, but to nicoor entire nations.

For in the past our conception of the boundaries of Red Cross were drawn around the battlefields and its vicinity, where white robed nurses went about giving aid to the injured, creating the chime of cheer and softening the dirge of death. PUBLIC WILL KNOW WHAT RED

CROSS IS DOING. "What are you going to do with this money?" I asked. "Are you going to take the public into your confidence?" Immediately I realized that I had

struck the dominant key in his course of action.

"Take them into my confi-dence, why certainly," he answered. "This is not my enterprise. It belongs to the people. It is your Red Cross. "It is your money and we went suggestions and criticisms. We

want all the help we can get. Every man, woman and child should have a part in this great "Any honest criticism is most welcome and most important to and constructive criticism-the

kind that comes after investigation and proper knowledge of the work that is being done."

"We want to correct any mistakes we may make as quickly as possible," he continued. "We don't want to adhe continued. "We don't want to adhe continued."

| See | Mar. ct. pf. | Seph. |

overwhelming conditions that confront them.

"And it took no small amount of work to even organize the facilities for handling this gigantic work," he explained. "For example, from an office force of forty we have had to develop one of over 700. Just stop to think of the number of our people that will be in Europe, whose welfare we must look after. Tweive thousand engineers of America will soon be at work on the amount of the called the confront and the configuration of the called the configuration of the engineers of America will soon be at work on the railroads of France. An army of a million men is in process of being mobilized for the other side, to say nothing of a navy consisting of 150,000 men. Sept Open, High. Low. Close, 24.10 2
